- HTML
- CSS
-
-
- Bootstrap
-
-
-
- Git/ GitBash
- Visual Studio Code
- GitHub
-

EDUCATION

MASTERS IN COMPUTER SCIENCE, HAVARD UNIVERSITY

Established an open source project that allows fellow students to learn through contributing to a real-world project.

CS50, 100% ADDITIONAL PROBLEM COMPLETION

Finished all 1,403 supplemental coding problems while tutoring classmates along the way.

ADVANCED MACHINE LEARNING, THESIS DEFENCE

Nimbly navigated an onslaught of questions from a panel consisting of the fields best and brightest minds.

EMPLOYMENT

Google (June 1999 – Present): AVP of Data Centers

- Keep 2.5million+ servers running at 99.9% uptime
- Insure 678 direct reports have the support they need to work effectively
- Accountable for over 10TB of data being properly maintained and redundantly stored.
